(Practical Experience as Student)

GENERAL INFORMATION

I have recently been involved mostly in the Kroonstad & Goldfield surrounding areas for the past 9 years, dealing as JB Arch Designs cc, a registered Senior Architectural Technologist, my practice was involved in all aspects of architecture. The aim of the firm was to give a thorough personal service to clients in all fields of architecture.

I offer a unique service of 3-D presentation to enable clients to visualize the finished building.

The depth of my experience extends over a wide field, which includes; Residential, Mass Housing, Factories, Offices, Sports facilities, Shops, Conference Facilities, Schools, Hospitals, Clinics, Abattoirs and Institutional Buildings.

My Experience can be summarized in the following:

Standard Architectural Services

- Appraisal and definition of projects
- Design concepts and feasibilities
- Design development
- Technical documentation
- Contract administration and quality control

Supplementary Services

- Project management
- Interior designs
- Artistic 3-D impressions

I see myself as reliable and able to work enthusiastically, either within a team or individually. I am professional, straightforward and positive and a fair person with a friendly disposition and a good sense of humor.

I am an excellent leader with great organizational skills.

Dealing with people is my passion and I feel comfortable with a wide spectrum of personalities. I am always open to new opportunities. Developing good relationships with my fellow employees, as well as life-long friendships has always been, and still is very important to me.

Due to the deterioration of the economic situation in Kroonstad and surrounding areas, I have been urged to start looking for a more stable position where I can prove myself, and be rewarded accordingly.

I have been working at PKA International Architects for the Last two years and have mainly handled the Site Administration and Implementation of the DRP Resettlement Project in Kathu.

I have also worked on numerous other Projects including Shopping Centre Upgrades and Revamps and have been involved in a lot of Managing of other Members within the Office. My duties include anything from Liaising with Clients, Consultants, Crisis Management to It related problems.

Johan Brummer - CV

My aim is to find employment in an environment offering me an opportunity to make a difference and to invest in a long term commitment where I can work myself into a more Senior position.

With my vast experience, I believe that I will be an asset to any company.

Attached is an Addendum A with a more detailed description of some of the Projects that I have been involved with throughout my Career.
